SKILLS

Manual testing: functional, smoke, risk-based regression, exploratory and UAT; usability, accessibility, cross-browser and responsive checks.

Test design and documentation: test cases, checklists, test plans, smoke and regression suites, exploratory charters, BDD acceptance criteria and structured bug reports with supporting evidence.

Defect management: Jira, Zephyr and Azure DevOps Boards; severity and priority, evidence capture, retesting, reopening, triage and root cause analysis.

Web and client-server: web application layers and data flow; Chrome/Edge DevTools Network inspection, device emulation and network throttling.

QA processes: QA/QC/UAT, SDLC/STLC, Waterfall, V-Model, Agile/Scrum, Definition of Done and CI/CD fundamentals.

SQL and REST API: introductory knowledge of basic database queries and REST API testing concepts.

Transferable skills: analytical thinking, attention to detail, accurate documentation, procedure adherence, risk awareness and teamwork.

LANGUAGES

English: C1 (Advanced).

Ukrainian: Native.

Russian: Fluent.

WORK ELIGIBILITY

Right to work in the United Kingdom.

Open to remote roles worldwide.
Hybrid or on-site roles in the UK.
Flexible hours across time zones.

PROFILE

Information Systems and Technology graduate focused on software quality, with Microsoft-authorised Coursera certificates in software testing fundamentals, manual testing and defect management. Practical knowledge of functional, smoke, risk-based regression, exploratory, usability, accessibility and cross-browser testing. Skilled in producing clear test documentation, investigating web defects with Chrome/Edge DevTools, and managing test and defect workflows in Jira, Zephyr and Azure DevOps. Analytical thinking, documentation accuracy and disciplined risk assessment developed in a regulated UK workplace.

CERTIFICATIONS

Manual Testing and Defect Management

Microsoft / Coursera | September 2026

[Credential F2MSXQT20IV5](#)

Covered smoke and regression suites, exploratory and usability testing, browser compatibility, defect reporting, prioritisation, tracking and retesting.

Software Testing Fundamentals and Methodologies

Microsoft / Coursera | August 2026

[Credential H235QQZV63V8](#)

Covered testing principles, test levels and types, SDLC/STLC, web application layers, test environments, Agile and BDD acceptance criteria.

EDUCATION

Bachelor's degree in Information Systems and Technology

Polissia National University, Zhytomyr, Ukraine | 2019-2023

BSc (Hons) Bioveterinary Science, Upper Second Class Honours (2:1)

University of Lincoln, United Kingdom | Awarded 2023

Master's degree in Veterinary Medicine

Polissia National University, Zhytomyr, Ukraine | 2019-2025

EXPERIENCE

Support Worker | Sense | United Kingdom

September 2024-present

- Maintain accurate paper-based and electronic records, protect confidential information and provide clear handovers.
- Follow detailed plans, written procedures, safeguarding requirements and risk controls consistently.
- Identify changes or risks, review information, document findings clearly and escalate them through the correct channels.

VOLUNTEER EXPERIENCE

Volunteer | Ukrainian Cultural Centre Lincoln

October 2022-August 2023

- Provided practical support to Ukrainian newcomers adapting to life in the UK.
- Provided Ukrainian-English interpretation to help overcome language barriers.

Volunteer | Ukraine Equestrian Relief (now Giving to Ukraine)

June 2022-January 2023

- Sorted and prepared donated supplies for delivery to Ukraine, checking condition, categorisation and box labels before loading.
- Worked in an English-speaking team, reporting damaged or incorrectly labelled items to coordinators.
